CAREER SUMMARY

Frontend Developer specialized in ReactJS & React Native with 2+ years of hands-on experience in developing scalable, high-performance web and mobile applications. Strong expertise in building reusable UI components, managing state with Redux Toolkit, and integrating REST APIs. Proficient in delivering end-to-end solutions using ReactJS, React Native. Passionate about building user-centric products and optimizing user experience.

TECHNICAL SKILLS

Programming Languages: JavaScript (ES6) | Typescript
Frontend Technologies: HTML5 | CSS3 | React JS | Next JS | React Native | Bootstrap | Tailwind CSS
State Managements: Redux toolkit | Context API
APIs & Tools: Axios | REST APIs | Postman
Version Control: Git | GitHub

WORK EXPERIENCE

Solution Developer | Foxberry Technologies Private Limited   Dec 2022- June 2025

- Developed and optimized responsive user interfaces for web and mobile applications using ReactJS and React Native, enhancing performance across various devices.
- Streamlined data flow and user experience by expertly managing application state with Redux, ensuring seamless interactions across web and mobile platforms.
- Seamlessly integrated essential backend APIs to facilitate robust data handling and real-time updates, significantly enhancing data fetching efficiency and application responsiveness.
- Maintained stringent code quality standards and leveraged Git for version control, effectively addressing technical challenges to streamline the debugging process across web and mobile applications.

PROJECTS

1. **Sri Family Guide (Mobile Application)**

   A cross-platform mobile app focused on lifestyle and personal development through daily actionable steps and guidance.

   - Created user-friendly interfaces and smooth navigation in mobile applications using React Native and React Navigation.
   - Integrated REST APIs to fetch and display personalized content, including user goals, recommendations, and progress data.
   - Managed global application state efficiently with Redux Toolkit, ensuring consistent data flow and a smooth user experience across the app.
   - Optimized application performance and responsiveness across both Android and iOS platforms, enhancing overall user satisfaction.

2. **PCMC User Portal (Web & Mobile Application)**

    A cross-platform application built for Pimpri Chinchwad Municipal Corporation (PCMC) to streamline property tax data collection and field surveys.

    - Developed and maintained responsive web and mobile interfaces using ReactJS and React Native, ensuring consistent user experience across platforms.
    - Integrated RESTful APIs to facilitate real-time property data synchronization, enabling up-to-date information flow within applications.
    - Utilized Redux Toolkit for effective and scalable state management, optimizing data flow and application performance across both web and mobile environments.

3. **Young Inspirators Network (Web Application)**

    An administrative dashboard built to support real-time election data management and analytics for the Young Inspirators Network initiative.

    - Designed and developed a comprehensive administrative dashboard with ReactJS, providing real-time visibility into user data, voter lists, live election counts, event details, and final results.
    - Integrated robust REST APIs to seamlessly fetch and update election data in real-time, ensuring information consistency between the dashboard and mobile applications.
    - Engineered and implemented advanced filtering capabilities (by district, college, and mobile number) to significantly improve data retrieval speed and streamline user navigation within the dashboard.

EDUCATION AND CERTIFICATION

Mechanical Engineering (CGPA-7.89) | RTM Nagpur University, Nagpur   2019

HSC 12th (63%) | Nehru Jr. College, Hingna, Nagpur   2015

SSC 10th (81%) | Adarsh Bharat Vidyalaya, Mohagaon, Hingna, Nagpur   2013
